## What is EuroLatamLex?

EuroLatamLex (ELX) is an international network of law firms created in 2016 with a clear purpose: to connect leading law firms in every city in the world to offer global legal advice without the need to open international offices.

Founded by Javier Cremades, president of Cremades & Calvo-Sotelo Abogados and the World Jurist Association, ELX was born to strengthen ties between Europe and Latin America. Today, its reach is truly global.

## Benefits for your firm

- Expand your international scope without investing in infrastructure.
- It facilitates the exchange of clients and legal knowledge between jurisdictions.
